
VC200DE-SDI - Dual Channel SDI capture

Brand: Magewell
Product Code: XI200de-sdi
Availability: In Stock

Price: ~~395.00 GBP~~ 316.00 GBP

Short Description

2 x SD/HD/3G-SDI Inputs Loop-through for Both Channels Plug-and-Play Using Existing Drivers PCI Express x4 Interface

Description

Capture up to two channels of SDI video with the *Magewell XI200DE-SDI PCI Express Video Capture Card*. On the front panel of the card are two BNC spigots for inputting SDI video and two SMA coaxial outputs for SDI loop-through.

This card supports SD-, HD-, and 3G-SDI standards allowing the input of standard and high definition footage at up to 60 fps. Embedded 8-channel SDI audio is also accepted through the SDI inputs.

This card is plug-and-play compatible, so it works with standard Windows drivers without any extra software installation. This card can be used in low-profile tower cases with the included low-profile PCI bracket.
