

Magewell Pro Capture Mini SDI

Brand: Magewell
Product Code: 11130
Availability: In Stock

Price: 194.00 GBP

Short Description

Magewell one channel SDI capture card Captures SD/HD/3G-SDI with loopback

Description

[Magewell Pro Capture Mini SDI](#)

One channel SDI capture card for embedded applications, Captures SD/HD/3G-SDI with loopback

The Magewell Pro Capture mini SDI is an ideal solution for applications that require the capture of HD sources in real

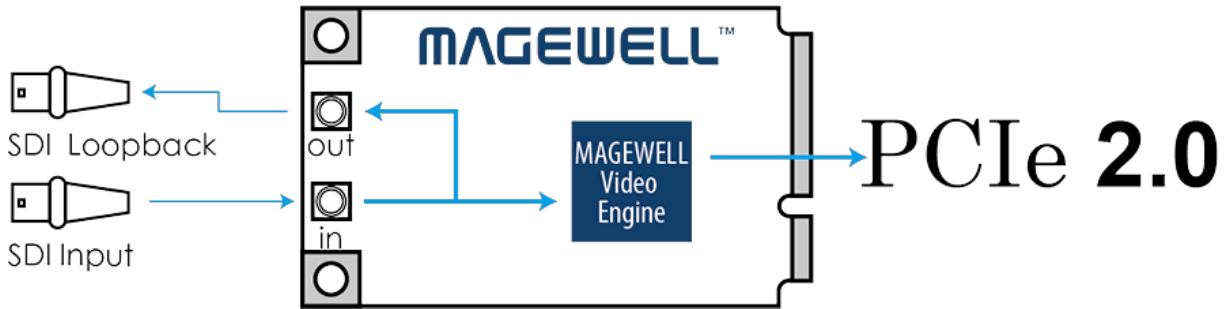

time from a mini sized PCIe card that can be embedded into low form factor equipment . Typical applications

include: Viewing SD/HD/3G-SDI sources with Loopback: SD/SHD/3G-SDI loopback from PCs,

MACs, Industrial/medical equipment, cameras, game consoles and other video equipment. Also

includes Streaming video or Broadcasting applications.

Interface

Features

- PCIe 2.0, x1 Lane
- . Capture 2k x 2k
- . Compatible with Windows
- . Compatible with Linux
- . Up/down Scaling
- . Deinterlacing
- . Multiple Streaming
- . Automatically Detect Input Signal
- . High-fidelity Video Processing Pipeline
- . Image Control, Color Adjustment
- . Various Output Color Space
- . SG-DMA Transmission Mode

- . Multiple Capture Devices on One Computer
- . Hardware Time Stamp
- . Mounting Holes
- . High-speed Memory
- . Firmware Upgrade
- . Common Drivers
- . Continously working for 24/7

Supported OS

Windows 7 / 8 / 8.1 / 10 / 2008 / 2008R2 / 2012 (x86 x64)

Linux (V4L2 kernel driver source code under NDA, supports x86, x64 & arm architecture)

Supported APIs

Windows, DirectShow, DirectKS

Wave API/DirectSound/WASAPI

Linux , V4L2, ALSA
